Meet Emma

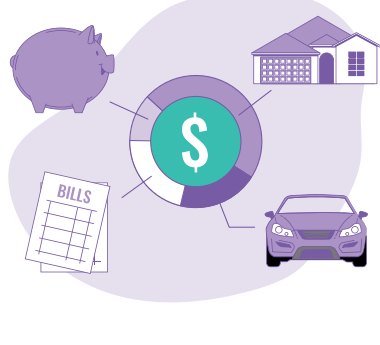

She's planning a trip to Bali, Indonesia. She realised she can earn miles faster than ever by using

CARDUP

to pay her big monthly bills.

Types of payments

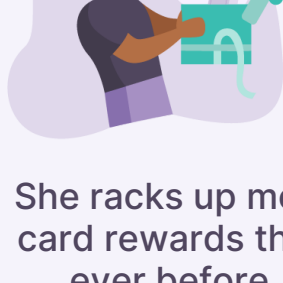

Emma decides to shift the following expenses onto her UOB PRVI Miles Card via CardUp:

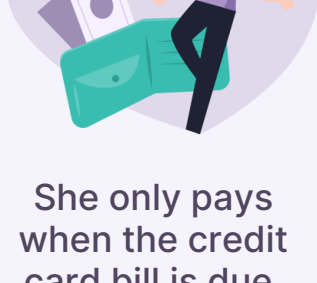

- Mortgage loan
- Education fees
- Car loan
- Insurance
- Income tax

= S\$7,500 monthly spend

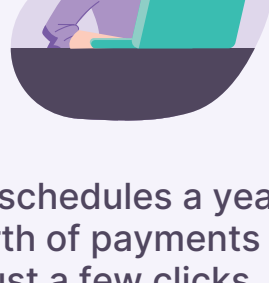

She gets to enjoy **these benefits**

She racks up more card rewards than ever before.

She only pays when the credit card bill is due.

She schedules a year's worth of payments in just a few clicks.

Time to fly to Bali

Emma earns **128,330 air miles¹** from putting her annual spend of **S\$90,000** on her credit card.

What she redeemed*:

Three (3) **return business** flights to Bali, Indonesia, worth **S\$4,005**
